GLA Goal: Restore and preserve Groton's lakes and ponds as recreational resources for future generations.

News/ Updates from the GLA:

- In the coming year our main focus will continue to be on the elimination of invasive weed infestations through herbicide spot treatments in Lost Lake/ Knops Pond, Weed Harvesting and Hydro Raking in Baddacook and the prevention of weeds from being reintroduced into the lakes on incoming boats and trailers.
- **The GLA is funding 100% of the herbicide spot treatment** in Lost Lake/ Knops Pond. This year it will **cost the GLA approximaely \$20,000** to spot treat for Milfoil, Fanwort and possibly treat the algae blooms. We have a **shortfall of about \$5,000**. The GLA has also pedged \$5,000 to the Baddacook hydro raking and weed harvesting project.
- Please consider increasing your donation this year to help fund the annual spot treatment for 2017 and every year going forward.

We Rely on your support. Every Contribution Matters!
